### **Important Information when Upgrading to the Macintosh version of Media Composer v2.7.5 or Avid Xpress Pro v5.7.5**

If you performed an upgrade from x.7.2 or x.7.3 to the current release and received a "Please Try Installing Again" message, do the following:

1. Open the Applications/Avid\_Uninstallers folder. Run Uninstaller for the applicable editing application.
2. Open the Library/Receipts folder. Delete the AvidCoreRuntime.pkg and AvidDIORuntime.pkg.
3. Run the x.7.5 Installer.
4. If you still receive an error, delete the Avid folder from the /Library/Application Support folder.
5. Run the x.7.5 Installer.

If you performed an upgrade from x.7.4 to the current release and received a "Please Try Installing Again" message after performing the installation, do the following:

1. Open the Applications/Avid\_Uninstallers folder. Run Uninstaller for the applicable editing application.
2. Run Uninstaller for AvidDIORuntime.
3. Run Uninstaller for AvidCoreRuntime.
4. Run the x.7.5 Installer.
