

What's New in Sibelius

Sibelius® is the world's best-selling music notation software, providing the fastest, smartest, and easiest way to write music. Here are some of the new features we've rolled out since introducing Sibelius 8...

Sibelius 8.5

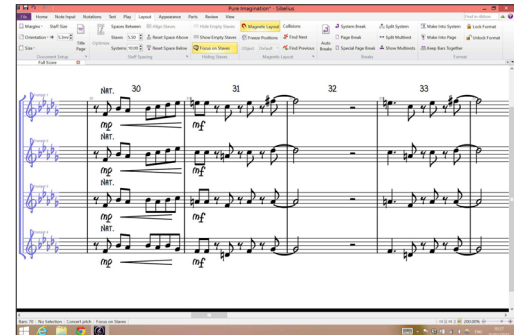

- Access, edit, and control elements in your score more easily with the updated Inspector
- Get more flexible and precise control with the ability to change staff sizes by system

Sibelius 8.4

- Create custom staff sizes, making it easier to get your scores looking perfect

Sibelius 8.3

- Make music easier to learn—or flag certain items—by coloring individual notes and chords
- Create better layouts, as rests now clean up nicely when sliding notes and rests based on Time Signature and beam group
- Work more easily with many improvements to multi-touch gestures on laptop trackpads
- Integrate your OS X El Capitan (10.11) workstations with the Sibelius License Server

Sibelius 8.2

- Have the same pitched note display a different accidental in any part of your score
- Achieve perfectly placed repeated barlines that coincide with time signatures
- Move notes in time with a completely new workflow that enables you to slide selections

Sibelius 8.1

- Create better looking scores fast with Magnetic Rests that automatically avoid notes and rests in other voices
- Eliminate colliding repeat lines with improved concise placement
- Share your work more easily with others by exporting your composition as an MP3 audio file
- Add eleventh chords to your compositions with its inclusion in the chord library
- Compose music on any OS X El Capitan (10.11) or Windows 10 computer with new support

Sibelius 8.0

- Handwrite music with a pen and edit notes with a tap using a Surface Pro 3 with PhotoScore & NotateMe Ultimate
- Navigate and edit scores quickly using multi-touch gestures on a trackpad or Surface Pro
- Draw annotations directly on a score to communicate ideas, comments, or create reminders
- See your score in all its beautiful glory with support for high-DPI displays on Windows
- Auto-activate Sibelius and stay on top of the latest updates through the Avid Application Manager

The most affordable Sibelius ever

Get upgrades and more

All Sibelius purchases and subscriptions come with an Avid® All Access plan, which provides you with access to all new Sibelius updates, upgrades, and support. If you're a subscriber, your plan is active throughout your subscription duration. If you own any version of Sibelius (perpetual license), you now have more affordable options to get and stay current with the following renewable annual Avid All Access (aka upgrade) plans. And because your perpetual license never expires, you'll always be able to use the software at the last version you've downloaded—even if you allow your plan to lapse in the future.
