

Avid NEXIS | Cloudspaces

Instantly expand your Avid NEXIS storage to the cloud

Free up Avid NEXIS® storage space and safely back up projects to the cloud. For small- to medium-size news, sports, and post-production organizations, Avid NEXIS | Cloudspaces provides a super-simple way to park projects in the cloud, as well as sync onsite Avid NEXIS workspaces for easy offsite backup. Available as an add-on service for all Avid NEXIS systems, Cloudspaces enables teams to store media in the cloud with ease and scale capacity on demand for uninterrupted production. Get greater workflow and cost efficiency in a fully integrated solution that's easy to set up and manage, reducing costs, risk, and administrative errors.

GET SUPER-SIMPLE OFFSITE PROJECT PROTECTION

Forget the complexity and expense of setting up and maintaining offsite backups of your media projects. Avid NEXIS | Cloudspaces enables easy cloud backup of your on-premises Avid NEXIS workspaces, protecting projects from loss while keeping your reputation and bottom line intact. No IT degree required.

PARK MEDIA IN THE CLOUD WITH EASE

When production runs high and Avid NEXIS runs out of space, Avid NEXIS | Cloudspaces makes it easy to park inactive media, finished content, and suspended projects in the cloud. It eliminates the tedium of offloading and shuttling media around, auto-provisioning your cloud storage, so you can stop wasting time and simply start creating.

KEEP PRODUCTION MOVING

Storing media and finished projects on multiple external drives is easy. Finding or remembering which drive contains that clip you need? Not so much. Avid NEXIS | Cloudspaces takes the stress out of media management and storage utilization, enabling you to store, find, and retrieve the content you need, quickly and easily.

LEVERAGE THE POWER OF AVID NEXIS

If you know Avid NEXIS, working with Avid NEXIS | Cloudspaces is super simple. All new Avid NEXIS systems come with 2 TB of cloud storage as part of a limited-time free offer, so you can start storing media in the cloud immediately. Get all the robust workspace management and user access control of Avid NEXIS in an easy-to-manage and deploy cloud-based storage service.

SAFELY BACK UP OR PARK MEDIA

Avid NEXIS | Cloudspaces lets you sync or park on-premises Avid NEXIS workspaces to the cloud with commonly used tools—including Marquis Workspace Tools, Windows File Explorer, and macOS Finder—providing better efficiency and security over risky manual processes. It's the simplest way to move content to the cloud with complete peace of mind.

KEY FEATURES

- Safely park media in the cloud to free up Avid NEXIS storage space
- Quickly set up and maintain an offsite backup of your media projects
- Store, find, and retrieve the content you need, quickly and easily
- Scale storage capacity on demand and provision cloudspaces as needed
- Eliminate the media wrangling and shuttle of external drives to keep production moving
- Easily configure and manage your cloudspaces and on-premises workspaces in one interface
- Leverage the power of Avid NEXIS user control for end-to-end security
- Minimize the cost, risk, and administrative errors of maintaining external devices

Avid NEXIS | Cloudspaces—Instantly expand your Avid NEXIS storage to the cloud

FREE UP AVID NEXIS STORAGE

Instead of resorting to NAS or external drives when budgets are tight, Avid NEXIS | Cloudspaces makes it easy to offload projects and media not currently in production. And because Avid NEXIS manages your cloudspaces alongside your workspaces, you can spend less time searching for and wrangling media and more time creating.

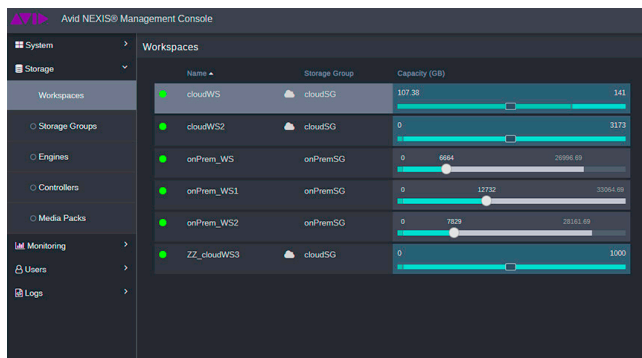

GET SUPER-SIMPLE SETUP

Avid NEXIS | Cloudspaces is ready to go whenever you are—with zero learning curve. It offers one-step activation and configuration from the Avid NEXIS Management Console and leverages Avid NEXIS user access controls for end-to-end security. You can configure multiple cloudspaces for better organization and searchability and even use your own media management tools.

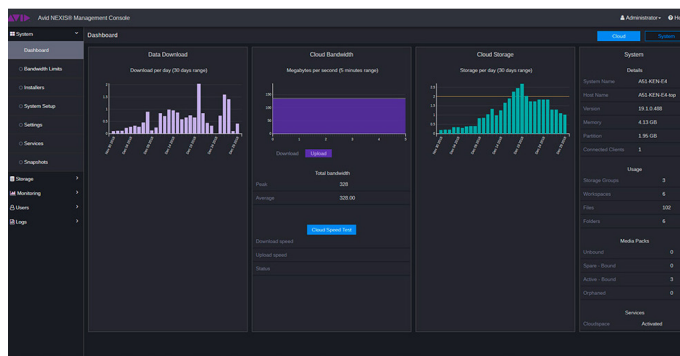

SUBSCRIPTION PLANS

Avid NEXIS | Cloudspaces is available as an add-on monthly or annual subscription service to any Avid NEXIS | E5, E5 NL, E4, E2, E2 SSD, or PRO system. All Avid NEXIS systems come with 2 TB of cloud storage as part of a limited-time free offer.

Plan	Term	Fees (USD)
Monthly	Monthly usage fees	\$24.39/TB (capacity), \$89.91/TB (download)
5 TB Plan	Annual (monthly overages apply)	\$1,863 For 5 TB capacity with 500 GB data
10 TB Plan	Annual (monthly overages apply)	\$3,606 For 10 TB capacity with 1 TB data
25 TB Plan	Annual (monthly overages apply)	\$8,054 For 25 TB capacity with 2 TB data

Dynamically resize your cloudspaces and on-premises Avid NEXIS workspaces by simply dragging the sliders.

Easily monitor your cloud capacity and data usage at any time in the Avid NEXIS Management Console.
