

Table of Contents

Acknowledgements.....	iii
Using This Book.....	xiv
Using The Course Material.....	xiv
Exercise Media Use and Credits.....	xv
Avid Certifications & Digital Credentials	xvi
Real skills, proven	xvi
Pro Tools Certification	xvi
Avid Certified Pro Tools Post Professional	xvi
Lesson 1: Synchronization in Pro Tools	1
Pro Tools Sync X	2
What is Pro Tools Sync X?.....	2
Connecting the Sync X.....	4
Enabling the Sync X.....	6
Configuring the Synchronization Settings	6
Configuring Session Setup for Sync X.....	8
Selecting a Clock Reference	9
SYNC Setup Clock Reference	9
Video Reference as a Clock Reference.....	10
Connecting a Video Reference Source.....	11
Using Video Reference (SD or HD).....	11
Valid and Invalid Clock Sources.....	13
Setting Frame Rates	14
Timecode Rate	15
Timecode 2 Rate	16
Feet+Frames Rate	17
Setting the Session Start Time	17
Changing the Session Start Time.....	17
24-Hour Timeline	18
Sync X Supported Video Reference Formats.....	18
Lesson 1 Review & Knowledge Check	20
Knowledge Check.....	21

Exercise 1: Hardware Configuration.....	23
Hardware Configuration for Post Production.....	24
Part 1.....	24
Part 2.....	25
Conclusion	27
Lesson 2: Working with Video in Pro Tools	29
Avid Video Engine	30
Video File Types.....	30
Working with QuickTime Video	31
QuickTime Overview.....	31
Setting the Video Engine Rate.....	31
Importing Video into Pro Tools Ultimate	32
Video Import Options.....	33
Syncing QuickTime Video	35
Importing Embedded QuickTime Audio into Pro Tools	36
File > Import > Audio.....	36
Right-Click Option	38
Video Tracks	39
Video Track Views.....	39
The Main Video Track	40
Locking a Video Track	41
Video Engine Rate Indicator.....	41
Video Dropped Frames Indicator	42
Timecode Overlay Option.....	43
Video Track I/O View Settings.....	43
Configuring an Avid Qualified Third-Party Video Peripheral	46
Video Sync Offset.....	47
Using the Video Window	48
Display Options	48
Resizing the Video Window	48
Playing Back Video Using an External Monitor	49
Video Preferences.....	50
Video Editing Options	51
Video Clips	51
Renaming Video Disk Files	52

General Video Editing Features	52
Video Clip Groups	55
Video Universe Window	55
Navigating Edits on Video Tracks	58
Optimizing Video Playback in Pro Tools	58
Lesson 2 Review & Knowledge Check.....	60
Knowledge Check.....	61
Exercise 2: Working with Video	65
Getting Started	66
Importing Quicktime	68
Configuring the Synchronization Peripherals Settings	70
Set the Session Setup Window Settings	70
Syncing QuickTime Video	71
Playback of Video on an External Monitor (Optional).....	72
Conclusion	72
Lesson 3: Using Pro Tools with Satellite Link	73
Introduction to Satellite Link	74
Satellite Link Roles.....	74
Satellite System Requirements	74
Configuring a Pro Tools Satellite Link Network.....	77
Configuring Satellite Link	77
Configuring a Satellite Link Network.....	77
Linking Satellite Link Systems	80
Satellite Link Controls.....	81
Controlling and Troubleshooting a Satellite Link Network	83
Satellite Link Supported Transport Functions.....	83
Error Indication	84
Caveats for Connecting Pro Tools and Satellite Link Systems.....	85
Satellite Link and EUCON Control	86
Lesson 3 Review & Knowledge Check.....	87
Knowledge Check.....	88

Exercise 3: Using Pro Tools with Satellite Link	91
Getting Started	92
Connecting the Pro Tools Video Satellite System to Pro Tools	92
Connecting to the Pro Tools Video Satellite from the Administrator System	93
Conclusion	94
Lesson 4: Media File Interchange	95
Media File Formats	96
Advanced Authoring Format (AAF) Overview.....	96
Material Exchange Format (MXF) Overview	97
AAF Types	97
Importing AAF Media into Pro Tools	99
Opening and Importing AAF Sequences.....	99
Importing AAF Tracks into Pro Tools.....	99
Import Session Data Options.....	101
Pro Tools Supported Import of AAF Sequences.....	106
Importing a Video Satellite Track into Pro Tools	107
Importing MXF Media	107
Importing MXF Video into Pro Tools.....	108
MXF Video Import and Playback.....	108
Lesson 4 Review & Knowledge Check.....	109
Knowledge Check.....	110
Exercise 4: AAF File Interchange	113
Getting Started	114
Importing an AAF Sequence into Pro Tools.....	114
Satellite Tracks and the Video Universe Window	116
Conclusion	117
Lesson 5: Working with Field Recorders	119
Using Pro Tools with a Field Recorder	120
Field Recorder Terminology	120
iXML Metadata Industry Standard	121
Supported Field Recorder Audio Files and Metadata	122
Displaying Field Recorder Metadata in Pro Tools.....	122
Field Recorder Workflows	124
Ensuring Metadata of Source Files Has Been Preserved.....	124
Receiving Source Files.....	124

Importing Source Files into Pro Tools	125
Importing Production Source Audio Directly into Pro Tools.....	125
Designating Field Recorder Tracks.....	126
Select Areas to Search.....	127
Selecting an Alternate Channel to Replace a Clip	128
Field Recorder Channels Match Criteria	129
Expand Alternate Channels to New Tracks	133
Lesson 5 Review & Knowledge Check.....	135
Knowledge Check.....	136
Exercise 5: Field Recorder Workflows.....	139
Getting Started	140
Importing the AAF Sequence into Pro Tools.....	140
Displaying Field Recorder Metadata in Pro Tools	142
Designating Field Recorder Guide Tracks	143
Expanding Field Recorder Channels to New Tracks	144
Conclusion	146
Lesson 6: Dialog Editing Techniques	147
What is the Role of a Dialog Editor	148
Manual Dialog Editing Workflow.....	148
Dialog Tracklay Techniques.....	149
Syncing Dialog and ADR.....	150
Sync Point Audio Editing	150
Layered Editing	152
Using Time Compression/Expansion	155
Additional Dialogue Editing Techniques	160
Shuttle Mode Editing	160
Tab to Transients.....	161
Using the Space Clips Command	162
Strip Silence	163
Creating and Adding Room Tone.....	164
Strip Silence Extract	164
Repeat to Fill Selection	165
Timeline Drop Order	167
Tandem Trimming	167
Locking Clips and Edit/Tool Mode	168

Edit Locking Clips.....	168
Time Locking Clips	169
Edit Tool/Mode Keyboard Lock.....	170
Cleaning Up Dialog	171
Noise Problems in Post Production Dialog.....	171
ARA Integration in Pro Tools.....	173
Using iZotope RX Spectral Editor	174
RX Spectral Editor ARA Processing Modes.....	177
Freehand Pencil Tool Editing	181
Committing Edits and Audio Processing	182
Commit Tracks.....	182
Track Freeze.....	182
Commit Tracks vs Track Freeze	185
Rendering Pre- or Post-Plug-Ins	185
Lesson 6 Review & Knowledge Check.....	187
Knowledge Check.....	188
Exercise 6: Dialog Editing and Tracklay	191
Getting Started	192
Separating Dialog	193
Editing Dialog.....	193
Cleaning Up Dialog	194
Conclusion	195
Lesson 7: Re-Recording Dialog.....	197
Preparing for an ADR Recording	198
Recording Voiceover Narration	199
Setting Up to Record ADR.....	199
Setting Input Monitoring Modes in Pro Tools	200
Record Mode Options.....	202
Voiceover and ADR Recording.....	203
Recording using Edit Playlists vs Audio Tracks	203
Recording to New Playlists	204
Assigning Alternate Playlists	206
Working with Duplicate Playlists	206
Auditioning ADR Loop Record Takes	207
Setting the Alternates Match Criteria	207

Selecting Alternate Takes	208
Track Comping with Voiceover and ADR	209
Auditioning Alternate Playlists	211
Copying/Moving Selections to Playlists	212
Target Playlists.....	215
Alternative Playlist Editing Techniques.....	217
Additional Editing in Playlist Lanes	218
Deleting Playlists	218
Playlist Display Options.....	219
Reordering Playlist Lanes	219
Resizing Playlist Lanes.....	220
Renaming Playlist Lanes	220
Playlist Lanes in the Tracks List	221
Rating Clips	221
Filtering Lanes.....	222
Lesson 7 Review & Knowledge Check	224
Knowledge Check.....	225
Exercise 7: Editing and Fitting ADR	229
Getting Started	230
Selecting ADR Takes using the Matching Takes List	232
Using Track Comping to Select and Compile ADR Takes	234
Editing ADR	234
ADR Tracklay	235
Conclusion	235
Lesson 8: Asset Management	237
Working with Catalogs.....	238
Catalogs View	238
Creating Music and Sound Effects Catalogs	240
Modifying and Updating Catalogs	243
Locating and Backing Up Catalogs	245
Scan Audio Files for Irregularities.....	245
Spotting Clips.....	246
Spot Mode (Recap).....	246
Spotting with Non-Linear Video	247
Auto-Spotting Clips.....	249

Time Stamps	249
Types of Time Stamps	249
Overwriting a User Time Stamp	250
Displaying Time in Clips	251
Clip Groups	252
Replacing Clips (Pro Tools Ultimate Only)	254
Import Session Data Attributes	256
Workflow Examples	260
Using Track Presets	261
Saving Track Presets	262
Recalling Track Presets	264
Modifying Track Presets	266
Importing Memory Locations, Marker Rulers, and Window Configurations	268
Lesson 8 Review & Knowledge Check	270
Knowledge Check	271
Exercise 8: Asset Management	275
Getting Started	276
Creating Catalogs	278
Spotting Sound Effects to Picture	279
Importing Clip Groups	280
Using the Replace Clip Command	281
Using Time Stamps	282
Recalling Track Presets	283
Lesson 9: Mixing to Picture	285
Mixing Terminology	286
Large-Scale Mixing Workflow	288
Audio Post Production Mixing Workflow	288
Session Signal Flow	289
Organizing Sessions for Mixing	289
Verifying and Changing Track Outputs	290
Stem Mixing Overview	291
Using Memory Locations for Post-Production Mixing	292
Creating Submixes	293
Creating Submixes Using Routing Folders	294
Writing Static Automation	295

Two Families of Write Operations	296
Differences Between Write Families	297
Using Preview Mode for Static Automation	299
Preview Mode Overview	299
Using Preview with the Manual Write to All Operation.....	299
Using Preview with the Write to All Enabled Command	301
Choosing between Static Automation Options	301
Using Punch Preview.....	302
Using Trim Automation.....	304
Varieties of Trim Mode	304
Writing Trim Automation	306
Viewing Trim Automation	307
Coalescing Trim Automation	307
Clearing Trim Automation	308
Advanced Metering for Audio Post-Production	309
Track and Master Meter Types	309
Loudness and Peak Program Metering	310
Average Loudness Metering.....	312
Lesson 9 Review & Knowledge Check.....	314
Knowledge Check.....	315
Exercise 9: Mixing to Picture	319
Getting Started	320
Creating Submixes.....	321
Color-Coding Tracks.....	323
Using Track Visibility Memory Locations	323
Creating a Mix to Picture.....	324
Conclusion	325
Lesson 10: Exporting Deliverables	327
Printing Mixes and Recording Stems Internally	331
Destructive Record Mode.....	333
DestructivePunch Record Mode (Pro Tools Ultimate Only)	333
Pro Tools Media Export Options	335
Export Clips as Files	335
Bounce Mix.....	337
Track Bounce	341

Commit Tracks.....	342
Pro Tools Export to AAF.....	344
Exporting a Pro Tools Session as an AAF Sequence.....	344
Pro Tools Supported Export of AAF Sequences.....	348
Pro Tools Export to Media Composer.....	349
Pro Tools Session to Media Composer File.....	349
Summary of Pro Tools Export Options.....	352
Lesson 10 Review & Knowledge Check	353
Knowledge Check.....	354
Exercise 10: Exporting Deliverables	357
Opening the Session.....	358
Creating a Printmaster Record Track	358
Creating Dipped Printmaster Stem Record Tracks.....	360
Creating Undipped Printmaster Stem Record Tracks.....	360
Printing Mixes and Recording Stems with DestructivePunch	361
Exporting Clips as MXF Media	362
Exporting Selected Tracks	363
Rendering Stems for Collaboration.....	364
Bounce to .mov	365
Conclusion	366
Extras (Optional)	367
Avid Media Composer Terminology	368
