Introduction	xi
About this Book	xi
Online Resources for this Course.....	xi
Course Videos	xii
Practice Quizzes	xii
Course Prerequisites	xii
Avid Audio Training Paths	xiii
Conventions and Symbols Used in this Book.....	xiii
Cross-Platform Issues	xv
Lesson 1. Getting Started.....	1
About This Course	2
Requirements for Exercises	2
Software and Hardware.....	2
Starting Work in Pro Tools	2
Accessing Existing Sessions and Projects.....	2
Configuring the Playback Engine	4
Configuring Pro Tools Hardware Settings	6
Configuring I/O Settings	8
Opening a Session or Project and Adding Tracks.....	14
Opening a Recently Used Pro Tools Document	14
Adding Tracks as You Work.....	14
Configuring Track Routing.....	15
Edit and Mix Window Display Options	16
Changing the Display of the Mix and Edit Windows.....	16
Using the I/O View	18
Using the Comments View	18
Using Collaboration Tools (Project Documents Only)	19
Track List Display Options.....	20
Showing and Hiding Tracks	20
Using the Track List Pop-Up Menu	21
Review/Discussion Questions	22
Exercise 1. Setting Up a Session	24
Lesson 2. Managing Session Data and Media Files.....	31
Pro Tools Software Capabilities	32
Basic Specifications	32
Pro Tools HD Software	32
Working with Digital Video	32
Setting Up Video Tracks	33
Video Playback on a Secondary Monitor.....	33

Using Workspace Browsers.....	34
Browser Features	34
Workspace Browser Overview	34
Workspace Browser Functionality	35
Waveform Display.....	35
Auditioning Audio Files	36
Using Soundbase	38
Searching for Files with Soundbase.....	38
Searching Using Tags	39
Importing Files and Session Data.....	40
Considerations for Importing Files.....	40
Importing Files Using a Workspace Browser	41
Importing Files Using the Import Commands.....	45
Importing Tracks and Other Session Data	47
Batch Importing Files	49
Working with Clip Groups.....	49
Creating Clip Groups.....	50
Clip Group Icons	52
Ungrouping Clips.....	52
Regrouping Clips	53
Clip Groups in the Clip List.....	53
Review/Discussion	54
Exercise 2. Working with Media Files	56
Lesson 3. Recording MIDI and Audio	63
Setting Up the Session	64
Displaying Conductor Rulers	64
Adding Meter and Tempo Events.....	64
Creating a Linear Tempo Change.....	67
Recording with a Click	68
Recording Selections	70
Creating a Selection	70
Using Pre- and Post-Roll	75
Loop Recording Audio and MIDI	77
Loop Recording Differences: Audio Versus MIDI	78
Capturing Loop Record Takes	78
Auditioning Loop Record Takes.....	79
Setting the Match Criteria.....	79
Selecting Alternate Takes	80
Recording MIDI Using Loop Playback with MIDI Merge.....	81
Review/Discussion	82
Exercise 3. MIDI Recording	83

Lesson 4. Working with MIDI & Virtual Instruments.....	89
Understanding Track Timebases.....	90
Sample-Based Operation Versus Tick-Based Operation	90
Track Timebases.....	91
Tick-Based Timing and Note Values	92
Virtual Instruments	92
Using Plug-In Virtual Instruments.....	93
Rendering Virtual Instruments.....	93
MIDI-Compatible Tracks and Track Views.....	95
Viewing MIDI Data in the Edit Window	95
MIDI-Compatible Tracks in the Pro Tools Mix Window	97
Auditioning and Playing Back MIDI.....	98
MIDI Thru Option.....	98
Default Thru Instrument Option.....	99
MIDI Thru Setting versus Default Thru Instrument Setting	100
Editing MIDI Data.....	100
Editing MIDI Clips.....	100
Editing MIDI Notes with the Pencil Tool	101
Editing Existing MIDI Notes	104
Deleting MIDI Notes	107
Review/Discussion.....	108
Exercise 4. Using Virtual Instruments	110
Lesson 5. Working with Elastic Audio	115
Elastic Audio Basics	116
Enabling Elastic Audio on a Track.....	116
Auto-Enabling Elastic Audio for New Tracks.....	118
Understanding Elastic Audio Analysis.....	119
Conforming Clips to the Session Tempo Map	119
Warp Indicators	120
Removing Clip Warping	120
Elastic Audio Track Views.....	121
Elastic Audio Markers.....	121
Warping Sound with Elastic Audio	123
Using Warp View.....	123
Types of Manual Warping.....	124
Using Elastic Audio to Tighten a Rhythmic Performance	127
How Quantizing Affects Elastic Audio Events	127
Improving the Quantization Results	128
Using Elastic Audio to Experiment with Tempo	128
Applying Tick-Based Timing to Elastic Audio-Enabled Tracks	128
Applying Tempo Changes	129

Improving the Quality of Warped Audio.....	129
Editing Event Markers in Analysis View	130
Adjusting Event Sensitivity	131
Using X-Form.....	133
Using Elastic Audio for Pitch Changes.....	133
Pitch Shifting with the Elastic Properties Window	133
Pitch Shifting with the Transpose Window.....	134
Changing and Undoing Pitch Transposition.....	135
Review/Discussion	136
Exercise 5. Using Elastic Audio for Dialog	138
Lesson 6. Editing and Fine-Tuning a Performance	143
Using the Smart Tool	144
Activating the Primary Smart Tool Functions	144
Creating Fades Using the Smart Tool	145
Smart Tool Fade Settings	145
Working with Fades	146
Using the Fades Dialog Boxes	146
Editing Existing Fades.....	151
Creating Rhythmic Changes for Audio and MIDI Data	154
Using Input Quantize	154
Quantizing Existing Material.....	155
Adjusting the Groove and Feel.....	157
MIDI Real-Time Properties	159
Using the Real-Time Properties View.....	159
Using the Real-Time Properties Floating Window.....	159
Enabling Real-Time Properties	160
Quantizing with Real-Time Properties.....	161
Review/Discussion	163
Exercise 6. MIDI Real-Time Properties	164
Lesson 7. Additional Editing and Media Management	169
Clip Looping	170
Working with Clip Loops.....	170
Creating Clip Loops.....	171
Modifying Clip Loop Settings	172
Editing Clip Loops.....	172
Considerations for Working with Clip Loops	174
Unlooping Clips.....	175
Editing Techniques	175
Working with the Grid.....	175
Using Layered Editing	177
AudioSuite Overview	178
AudioSuite versus Insert Processing	178
AudioSuite Features.....	178
Using AudioSuite Plug-Ins	179

Working with the Clip List	185
Finding a Clip in the Clip List.....	186
Cleaning Up the Clip List.....	188
Exporting Selections.....	192
Review/Discussion.....	195
Exercise 7. Working with Clip Loops and Editing on the Grid	197
Lesson 8. Basic Mixing and Signal Flow	203
Track Colors, Icons, and Status Indicators	204
Track Color Coding	204
Track Type Icons	205
Track Status Indicators.....	206
Using Inserts for Effects Processing	207
Inserts on Audio Tracks and Aux Inputs.....	207
Inserts on Master Faders.....	207
Plug-In Inserts.....	207
Hardware Inserts	208
Using Sends and Returns for Effects Processing.....	209
Creating a Send	209
Setting the Send Level.....	210
Changing the Default Send Level Preference.....	210
Send Display Options	211
Creating a Return.....	212
Working with Sends	215
Using the Send Window.....	215
Moving and Copying Sends	218
Changing and Removing Sends	219
Using Native Plug-Ins.....	219
Using Gain-Based Processors	219
Using Time-Based Processors.....	219
Using the Plug-In Window.....	220
Master Fader Tracks.....	221
Uses of Master Faders.....	222
Creating Master Faders	222
Review/Discussion.....	223
Exercise 8. Adding Music and Effects Processing	225
Lesson 9. Writing and Editing Automation	231
Understanding Automation.....	232
Groups and Automation.....	232
Automation Playlists.....	232
Working with Automation	233
Automation Modes	233
Enabling and Suspending Automation.....	234
Writing Automation Selectively	235

Playing Automation.....	236
Viewing Automation	236
Graphical Editing of Automation Data.....	237
Automation Displays.....	238
Creating and Adjusting Breakpoint Automation Data	238
Drawing Automation.....	239
Cutting, Copying, and Pasting Automation Data.....	241
Cutting Automation Versus Deleting Automation.....	241
Using Cut, Copy, and Paste Commands.....	242
Using Paste Special Mode.....	243
Removing Automation from a Track	244
Deleting Breakpoints on the Displayed Automation Graph (Recap)	244
Clearing Automation for the Displayed Automation Graph.....	244
Clearing Automation for All Automation Graphs	244
Review/Discussion	245
Exercise 9. Using Automation	247
Lesson 10. Using Advanced Mixing Techniques and Creating Final Media	253
Working with Track Subsets	254
Using the Do-To-Selected Function	254
Submixing Tracks	255
Routing Signals Using Paths and Selectors	256
Grouping Tracks.....	259
Understanding Mix and Edit Groups.....	259
Creating a Mix or Edit Group	261
Activating and Deactivating Groups	262
Working with Groups.....	263
Identifying Group Membership	263
Selecting Members of a Group	265
Modifying a Group	265
Deleting a Group	266
Using the All Group	267
Groups and Automation.....	268
Groups and Elastic Audio.....	268
Creating Final Media.....	268
Creating a CD-Compatible Bounce.....	268
Creating an Archive.....	270
Review/Discussion	272
Exercise 10. Mixing Techniques.....	274
Index.....	281
